

# Publishing partner of the scientific communities

→ 1920, creation of the *Société du Journal de Physique* Amongst our initial contributors:

- Albert 1st, Prince of Monaco
- Antoine Béclère
- Louis de Broglie (Nobel Prize)
- Marie Curie (Nobel *Prize*)

- Langevin Paul
- Lumière Louis
- Perrin Jean (Nobel Prize)
- The French Physical Society

Current major ownership: The French Physical Society

Mission: « To participate in the dissemination of knowledge »

Positioning: « An international scientific publisher with French roots»

### Some figures

- 3 activities :
  - journals, 55 titles (ownership 14, contract 41)
  - books, 40 to 50 titles per year
  - publishing services
- Turnover 2008: 8.5 M€
- Staff:
  - Employees *EDP Sciences*: 60
  - Employees *e-Press*: 30

90

### **Journal Publishing**

55 titles published (or web hosted)

• Economics : New

Medicine and dentistry: New

Life Sciences :

• Physics:

Mathematics:

Engineer's Science:

Astronomy:

#### Coverage

- Some 6000 articles in 60 000 pages and 370 leaflets annually
- 140 000 articles in the database

### Journal Publishing – International co-operations

#### Co-editions with:

- Institute of Physics Publishing, Bristol, GB, since 1985
- Societa Italiana di Fisica, Bologna, IT, since 1985
- Springer Verlag, Heidelberg, DE, since 1997

### Some publishing contracters:

- Deutschen Imkerbundes E.V., Wachtberg, DE,
- European Southern Observatory, Garching, DE,
- European Astronomical Association, Versoix, CH
- International Society for BioSafety Research, Riverside, USA
- ...

## EDP SCIENCES

### Metadata spreading (A&A and some others)

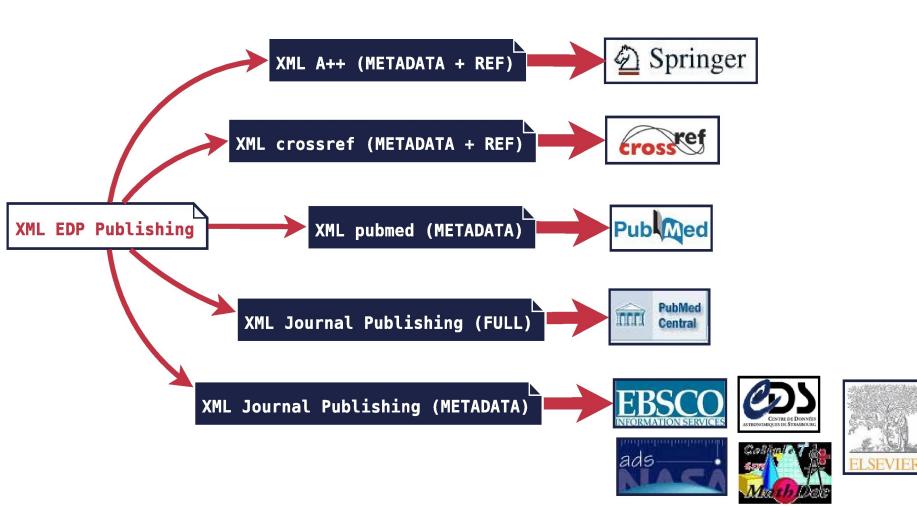

EDP Sciences, publishing partner of the scientific communities

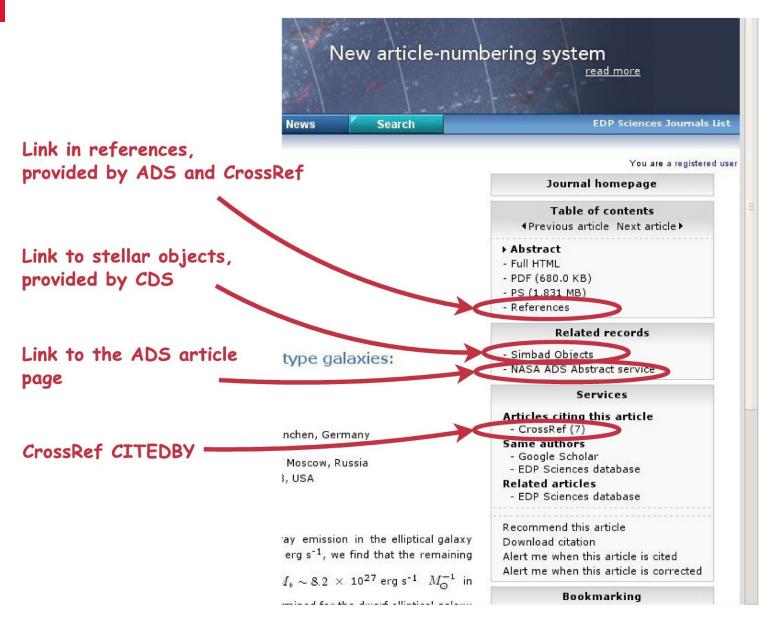

### Metadata spreading (all fields)

#### EDP Sciences, publishing partner of the scientific communities

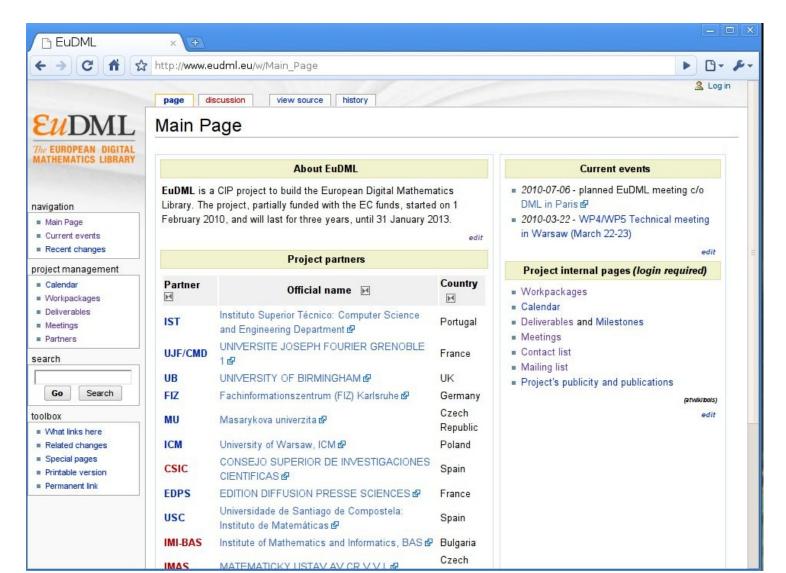

#### Links to various services

# EDP Sciences participates in the European Digital Mathematics Library (EuDML)

### Some EuDML considered technologies

- \* OAI-PMH to gather data from providers
- \* YADDA a software platform for creating digital repositories
- \* Lucene as indexing and search library, used by Yadda
- \* Archiving and Interchange Tag Set NML DTD as a central XML format?

### Recent changes in our publication process

- Article numbers instead of page numbers (A&A, EPJAP, EPJ Web of Conferences, ...)
- \* DOI assigned to some Online Material (in Live Science Journals)
- \* New DTD, based on NLM Journal Publishing DTD
- \* More journals with « full XML »
- \* New online publication system, more automatic, more flexible.

### Thank you for your attention!
